

KSPCA
ACTIVITY REPORT

2024-25

APRIL 2024

- **Total Outpatient Cases Attended: 77**

- **Medicine Cases: 60**
- **Surgery Cases: 14**
- **Gynaecology Cases: 3**

RESCUE CASES

1. Poppy:

An approximately 2-month-old female pup with carpal laxity leading to carpal flexion of both limbs was abandoned in front of the facility. The pup was named Poppy. Both forelimbs were bandaged with splints after correcting the limbs to their normal position. Calcium and other supplements were provided to her with nutritious food. She was dewormed and is undergoing her vaccination schedule. She happily plays with the other dogs, and her bandaged forelimbs are healing.

Poppy will fully recover in a few weeks' time.

2. TTV Dog:

An adult female dog was rescued from the streets with a very severe stage of TTV.

The rescue team, including Mrs. Janani, Mr. Harinath, Mr. Johnny, and Dr. Aneeka, treated her with **inj. Vincristine sulphate** once a week for 4 weeks. The tumour mass reduced very well. On April 29th, spaying was done for her by Dr. Aneeka, during which a large follicular cyst was discovered. She was released back to the location where she was originally rescued.

BEFORE

AFTER

EQUINE CAMP - PALANI

An equine camp was held in **Palani** on April 24th, 2024, by the **WVS team from Ooty** and **KSPCA (Kodaikanal Society for Protection and Care for Animals)**. A total of 29 working equines were vaccinated with the **Tetanus vaccine**, dewormed with **Ivermectin oral solution**, and given a complete health check-up.

- Some special cases treated included:
 - A horse with purulent nasal discharge was treated with an antibiotic shot and tablets.
 - Another horse with bloat and constipation was treated with laxatives such as **magnesium sulphate**, **Laxabulk**, and **liquid paraffin**, which was passed using nasogastric intubation. Painkillers were also given, and **Bloatosil** and fluid therapy were advised.
 - Additionally, an **ultrasound scan** revealed that one of the horses was pregnant.
- **Owner Education:** The owners were given education on responsible and humane handling of equines.

The **WVS team** included Dr. Kalaivanan, Mr. Sam, and Mr. Mahendran, while the **KSPCA team** included Dr. Aneeka Antony.

RESCUE CASES

1. TTV Dog (Near 7D Theatre):

On May 4th, 2024, a female dog with a wound in the vulva was reported by Miss Jaya. The rescue team, including Dr. Aneeka and Mr. Johnny, arrived at the location. The dog was diagnosed with TTV (Transmissible Venereal Tumour). The dog was treated on-site with **inj. Vincristine** and **Pantop**. A follow-up was done the next week, and the tumour was completely reduced.

2. Dog with Plastic Pot:

On May 6th, 2024, an adult ND dog was found by Dr. Aneeka and Mr. Johnny with a green plastic pot stuck on its neck while on their way to a house visit. The rescue team carefully caught the dog using a net and removed the plastic pot. The dog was checked for external injuries and was left free after treatment. The dog was also provided with biscuits.

KODAIKANAL MASS DOG VACCINATION DRIVE

A successful **anti-rabies vaccination camp** was conducted from **May 24th to 31st, 2024**, by **KSPCA** in collaboration with **Mission Rabies**. Over **3,751 dogs** were vaccinated across **Kodai Hills**.

- The drive covered the **Kodaikanal Municipality, Pannaikadu Township**, and 16 other villages including remote villages such as **Vellakavi**, which are inaccessible by vehicles.
- Prior preparations for the vaccination drive included radio interviews, awareness videos featuring celebrities, and posters promoting rabies prevention and responsible pet ownership.

- The workforce, consisting of **45 members** from various groups such as **Mission Rabies, HOPE, CARE, Lyka Pet Clinic, HAS, ASRA, and KSPCA**, was divided into **6 teams**.
- **KSPCA Team:** Mrs. Janani Krishnamurthy, Dr. Aneeka Antony, Mr. Johnny, and Mr. Raj.

RESCUE CASES

1. **Shero:**

On June 22nd, 2024, four tourists (**Phalguni Bhaumik, Tannina Ghosh, Abhilash, and Aakash**) rescued a malnourished puppy from the **Pambarpuram** roadside. The puppy, approximately 30 days old, was weak and suffering from hypothermia. She was provided with wet food, milk replacer, and warm bedding with a hot water bag. She was also vaccinated with **Nobivac DHPPi**. During deworming, it was discovered that the puppy had a heavy worm infestation.

2. **Sheela:**

On June 28th, 2024, Mr. Vinoth Kumar and his wife brought a puppy to the clinic that had met with a motor vehicle accident. The puppy, a 2.5-month-old female, had a complete femur fracture in her left hindlimb, along with internal haemorrhage in the ventral pelvic region. The wounds were dressed, and ointment (**Thrombophob**) was applied to the bruises. The fracture was reduced and secured with soft bandaging. Painkillers and antibiotics were administered. The puppy was dewormed, fed, and kept in a warm space for further care.

3. **Maxx (Owned Dog, Rabies)**

On 8th of June 2024, a 14-year-old male dog named Maxx, owned by Mr. Govinthan Babu, was brought to the facility. The dog exhibited symptoms of rabies, including biting inanimate objects, drooling, loss of voice, and no feed or water intake. After evaluation, Maxx was sedated and humanely euthanized to prevent further suffering.

RESCUE CASES

1. Kitten (Meow)

On 2nd of July 2024, a male kitten of approximately 2 months old was rescued and brought to the clinic by tourists. They said that the kitten was run over by a vehicle on Lake road. On examination, no external injuries or fractures were detected. Paralysis of the left hindlimb was noted. The kitten was treated with painkillers and anti-inflammatory medicines. Syrup for nerve support was also given. The kitten was dewormed and vaccinated. He is being fed and taken care of daily. He has now adapted very well to move around despite the paralysis of his limb.

2. Rescue from St. Mary's street

On 3rd of July, a community dog was found limping on St. Mary's street. She was brought to the facility. No signs of external injuries or fractures were found. Painkillers were given, and soft bandaging was done. She recovered from limping and started to bear weight on all four limbs. She was neutered and released back to St. Mary's street.

3. Barn owl

On 9th of July, a barn owl was brought to the facility by the forest department. The condition of the owl was very pathetic. On examination, it was found that the owl had hypothermia and dried blood on the nostril. The bird was extremely emaciated and was unable to bear weight on the limbs. The bird was kept warm in a fully covered cage. Under expert guidance, the bird was treated with inj. Dexamethasone, RL, and NS. The bird died on the table and was later handed over to the forest department.

4. Shiloo

On 13th of July, an approximately 2-month-old female puppy was abandoned in front of the KSPCA gate. The pup was dewormed and vaccinated with MCV on the same day. She was provided with food and water. Later on, she got her first dose of ARV. She is a healthy and active puppy currently looking to get adopted.

5. Dog Rescue from Bus stand

On 25th of July, we got a rescue call from Kodaikanal bus stand. The informer, Mr. Suresh, said that there was an injured dog there unable to move. The rescue team, including Dr. Aneeka Antony, Mr. Johnny, and Mr. Raj, came to the spot and took the dog to the facility. The dog was an adult, black-and-tan coloured female dog.

On examination, no external injuries or fractures were noticed. The dog had

swelling in the right forelimb and was unable to bear weight on the limbs. The dog was treated with anti-inflammatories, painkillers, diuretics, Magnesium sulphate paste, and Thrombophob ointment. The swelling and haematoma reduced fully in 3 days. The dog started to bear weight on all limbs and started walking effortlessly. The female dog was neutered, given an ear notch, and a reflective collar. She was later released back at the bus stand on 31st of July.

RESCUE CASES

1. Rainy

On the 1st of August 2024, a female approximately 2-month-old fawn-coloured pup was abandoned in front of the KSPCA gate. On examination, the pup was found to be healthy with no external injuries. Fleas were present. The pup was provided with nutritious food, water, and supplements. She was named Rainy. She was vaccinated, dewormed, and treated for fleas. She later on got along very well with the other inmates. On 24th of August 2024, Rainy was adopted by Mr. M. Maruthupandi along with two of our other pups, namely Veermandi and Shiloo.

2. Investigation and Follow-Up on Viral Media Report Regarding Dog Bite Incident

On August 1, 2024, a media report went viral, stating that a little boy was chased and badly bitten by stray dogs. On August 2, 2024, a field visit was conducted to investigate the incident and address the community concerns.

Conversation was made with the father and son regarding the incident. Contrary to the media reports, the incident did not occur on August 1, 2024, but on July 22, 2024.

Advice on post-bite protocol and safety measures to be followed was taught to the father and son. Pamphlets regarding rabies awareness were distributed to them and the people around.

In addition, during the field visit, free-roaming owned dogs in the area were

vaccinated. On the same day, two free-roaming dogs were caught for animal birth control and taken to the KSPCA facility. Additional ABC's for the stray dogs in Naidupuram were done on the following days.

3. Thatha / Perusu

On 2nd of August 2024, we found an old nondescript dog roaming the roads of Naidupuram. Initially, he was caught for ABC surgery. Later, we discovered he had cataracts and lost all teeth in the upper jaw. It was decided to keep him in the facility as he was unable to be left out on the road. He was named Thaatha/Perusu. Thaatha was neutered, dewormed, and vaccinated. He was provided with food and shelter. He now enjoys the company of his fellow KSPCA inmates and his new surroundings.

4. Billu

On the 8th of August 2024, a tourist, Ms. Akshatha, rescued and brought an approximately 3-month-old male kitten to KSPCA. The kitten was discovered by her, injured in Vattakanal. The skin in the ventral aspect of the pelvic region was completely absent. In addition to this, two large penetrating holes were present on either side of the tail. Feed and water intake were normal. The animal was alert. The wounds were dressed and bandaged. Later, when signs of healing showed,

Aluspray was used on the wound. The animal was named Billu and was fostered in the first floor of KSPCA.

5. Loo Loo

On 10th of August 2024, we received information from Mr. David from Pambarpuram regarding a pup who met with an accident. The rescue team, including Dr. Aneeka, Mr. Johnny, and Mr. Raj, went to the spot and brought the approximately 3-month-old male pup to the facility. On examination, it was discovered that the pup had a closed complete fracture of the humerus of the left forelimb. The fracture was reduced and POP was done. Painkiller was given. The pup was named Loo Loo. He was dewormed and vaccinated. Now the pup happily plays with other inmates with his bandaged leg.

6. Snowy

On 10th August 2024, we received a call near Sterling Hotel informing that there was a boxer roaming around. The rescue team, including Mr. Johnny and Mr. Raj, went to the location. They confirmed it was Snowy, the dog previously in KSPCA foster care, who was unlucky in her first adoption and had later been adopted second time. It was found that the family who adopted Snowy second time abandoned her on the streets. She was found in a badly emaciated condition. She

was immediately rescued and brought to the facility. She was fed, dewormed, and treated for flea infestation. Later on, we found a foster and adoptive home for Snowy with Ms. Jenna R in Bangalore. She now leads a happy life in her new home.

7. **Tiny**

On 10th of August 2024, two ladies from Old Kodai Cheese Factory brought a puppy from the streets. The puppy was a tiny little female pup approximately 1 month old. The pup was healthy. It was given deworming, vaccination, and nutritious food with supplements. Because of its tiny look, it was named Tiny. Unlike her name, she does not feel tiny and hence plays with all the big inmates with no fear.

8. **Stolen pup case**

On 12th of August 2024, Naveena informed that someone had abandoned their German Shepherd dog in Greenland's property. Dr. Aneeka went and examined the pup. The pup was about 8 months old, female, and was completely healthy. Deworming and vaccination were done.

Later on the same day, Mrs. Elizabeth from Pambarpuram called the helpline stating that her pup had been stolen by a tourist. She had evidence of the tourist, Mr. Tony, stealing it. Later on, it was figured that the pup in Greenland's was Elizabeth's pup. The next day, the pup was returned to the family under KSPCA's guidance.

A complaint was raised against Elizabeth for not providing proper space for their dog in their home and for negligence. KSPCA provided them with time to extend

their space for the pup after consulting TNAWB. Later, on, the case of the pup was handed over to TNAWB and DISTRICT SPCA. The pup was relocated to Dindigul as the pet parents were grieving for a relative's death and could not provide care due to the same reason.

9. Kuruamma

On 13th of August 2024, a pup that was abandoned in front of Mrs. Janani's house was brought to the KSPCA facility. It was an approximately 2-month-old female pup. A small wound was found on the neck, otherwise, the pup was healthy. She was named Kuruamma. Kuruamma was dewormed and vaccinated. She was provided with nutritious food, water, and supplements. Later, on 15th of August, she was adopted. The new parents were informed about the vaccinations that needed to be continued.

10. TVT male in front of AMS Broilers

The KSPCA was informed about a male dog with TTVT in front of AMS Broilers by Mr. Arif and Mrs. Naveena. The KSPCA team, consisting of Dr. Aneeka Antony and Mr. Johnny, went to the location, found the dog, and confirmed it had TTVT on 24th of August 2024. On the same day, the first dose of vincristine was given.

On 31st of August, a slight decrease was noted and the 2nd dose of vincristine was administered. A reflective collar was given. Further doses will be given until the tumour is fully reduced.

11. Accident case in Attuvampatti

Informer, Jeyappriya Palanivelu informed KSPCA about a dog that had met with an accident and required immediate care in Attuvampatti. On 24th of August 2024, the KSPCA rescue team, including Mrs. Janani, Mr. Johnny, and Dr. Aneeka, arrived at the location and brought the dog to the facility. The dog was a female, about 8 months old. It had large lacerated wounds on both the forelimb and hindlimb on the right side. The wounds were cleaned, dressed, and bandaged. Antibiotics, painkillers, anti-inflammatory, and multivitamin injections were given. Later on, when the wound showed improvement, Aluspray was used. The dog is being fed with nutritious food and water. We named her Hailey.

12. Mange dog in Attuvampatti

On 24th of August 2024, on our way from the rescue in Attuvampatti, a group of people informed us about a mange dog there. The rescue team, including Mrs. Janani, Mr. Johnny, and Dr. Aneeka, stopped to treat the dog. It was a female, ND, adult dog. Ivermectin, antihistamine, anti-inflammatory, and multivitamin injections were given after the dog was caught with a net. The dog was released in the same place after treatment.

RESCUE CASES

1. SCOOBY

On the 1st of September 2024, we received information that there was a dog lying near the KIS gate, unable to move. Animal handler Mr. Johnny went to the location and spotted the dog. He was brought to the facility. He was an adult male dog, brown in color. On examination, it was found he had bruises in his pelvic region and a wound on his left hindlimb. It was suspected that he had been hit by a vehicle. He was treated with painkillers and anti-inflammatory medicines. The wound was dressed. In a few days, the bruises healed, and he started to walk on 3

legs (not bearing weight on the left hindlimb). He is named Scooby. He was vaccinated for rabies. Currently, he walks freely around the facility on his three legs and is being treated for his skin lesion on the dorsal aspect.

2. Anti Rabies Vaccination Camp in Bharati Annanagar Colony

With the help of a resident of Bharati Annanagar Colony, Mr. Vaibhav, who volunteered to help with the ARV Camp, a total of 57 anti-rabies vaccinations were done. This included both dogs and cats. The vaccination drive was conducted after a rabies suspect case was reported in Bharati Annanagar Colony and to commemorate World Rabies Day.

A total of 32 vaccinations were done on 7th of September 2024 and 25 vaccinations on 10th of September 2024. Vaccination cards were provided to the owners. The vaccination team included Mrs. Janani, Dr. Aneeka, Mr. Johnny, and volunteer Mr. Vaibhav.

On reaching the destination, another case suspected for rabies turned out to be a pup affected with Canine Distemper. With both this observation and the negative rabies test result, a conclusion was made that the chance of incidence of rabies was nil. Still, rabies vaccinations for the colony dogs and cats were done. Information pamphlets were distributed. The community was educated regarding the importance of the rabies vaccine and the steps to follow if bitten by a dog or cat.

3. BROWNY TTV DOG @ AMS BROILERS

The male street dog named Browny, by the staff of AMS Broilers, has been treated for TTV since last month. The treatment continued in September as well. There has been a significant decrease in the tumour size of the dog. The treatment will be continued until a full recovery is made.

4. BLADY

On 12th of September 2024, Mr. Selvam rescued and brought a black male pup, approximately 1.5 months old, to KSPCA. The pup was found to be healthy and active. The pup was dewormed and vaccinated with both MCV and ARV. He was

named Blady. Now Blady is under the foster care of KSPCA and awaits adoption by a loving family.

5. Brown Fish Owl

On 11th of September 2024, a brown fish owl was rescued by the forest department and brought to the KSPCA facility. On external examination, the bird was found to have a wounded right wing with maggots present. The bones from the radius and ulna to the phalanges were exposed with the absence of muscle, skin, and feathers.

The veterinarian, Dr. Aneeka at KSPCA, carefully removed the maggots. The feathers that were hanging loose were clipped. The wound was thoroughly flushed with povidone iodine, and antibiotic powder was used. Based on the advice of the avian expert veterinarian, the bird was injected with painkillers, antibiotics, and fluids. The bird was fed mainly with raw chicken and was provided with water. It was placed in a fully cloth-covered cage and left to rest.

On the second day itself, the wound showed great signs of healing with the absence of maggots. The bird was very alert. The feed intake improved drastically in the following days. Defecation, too, was normal. The bird moved around the cage with its feet at ease. It did not show any attempt to fly. Mr. Sundar from Petflix, Kodaikanal, was always there to handle and feed the bird.

On 22nd of September 2024, Dr. Venkateshwarlu from Lyka Pet Clinic, Dindigul, came and removed the exposed bones, apposed and sutured the muscle and skin layer. Later, on 26th of September, the owl was transferred to Vandalur Zoo, Chennai, for further treatment and rehabilitation. This transfer was done with the help of the forest department.

6. Pony Rescue

On 23rd September 2024, we received information from the forest department and Mr. Bhaskar regarding a pony that was believed to have an injured leg. They informed that the pony was spotted in Melpallam. Based on the information, a search party including Mrs. Janani, Dr. Aneeka, and Mr. Bhaskar searched the site in the evening but could not find the pony.

The next morning, 24th of September 2024, the pony was discovered. The KSPCA team including Mrs. Janani, Dr. Aneeka, and Mr. Johnny reached the location. It was discovered that the male pony had an overgrown hoof on its right hindlimb, making it difficult to walk. Upon further examination, it was discovered that the pony had a maggot wound under the same hoof. The maggots were removed, and the wound was dressed and bandaged.

With the help of Mr. Bhaskar, the pony was loaded onto the truck. Necessary arrangements were made for its safe transport to The Backwater Sanctuary in Kabani for further treatment and rehabilitation. Later on, the pony had its overgrown hoof cut and the wound treated. The pony will remain in Kabani for its rehabilitation.

7. Rescue Case in Observatory Road

On 24th of September 2024, we received a call from Mr. Felix. He informed that a stray dog had been hit by a vehicle in Observatory Road. The KSPCA team, including Mr. Johnny and Dr. Aneeka, reached the location. On examination, it was found that the adult male dog had paralysis in its right hindlimb but was able to walk on his three legs. The dog was given spot treatment which included painkillers, anti-inflammatories, and nerve support injections.

RESCUE CASES

1. Leopard Cat Kitten

On October 5, 2024, a male leopard cat kitten was rescued by the Tamil Nadu Forest Department (TNFD) within the town limits of Kodaikanal. The kitten was brought to the Kodaikanal Society for Protection and Care for Animals (KSPCA) facility for further care and monitoring. Upon arrival, the health status of the kitten was assessed.

The kitten was determined to be young and in need of special care. It was provided with a milk alternative and placed under observation for 48 hours to ensure its health and vitality. During this period, the following observations were noted:

- The kitten remained active and alert.
- It responded well to the milk alternative provided as a substitute for natural feeding.
- Common vocalizations associated with leopard cats were noted.
- The kitten was more active during the nighttime hours, which aligns with the species' nocturnal nature.

The care regimen involved feeding the kitten at regular intervals and ensuring a secure, calm environment. The animal's movements, responsiveness, and overall condition were monitored closely to ensure it was thriving under care.

By October 8, 2024, the kitten showed significant signs of health improvement and was observed to be active and responsive. After verifying the kitten's healthy status and tracing the possible location of its mother, TNFD made the decision to release the kitten back into the wild. The kitten was safely released in the nearby Reserve Forest (RF) area, where it could reunite with its natural habitat and, potentially, its mother.

2. Boxy the Boxer

KSPCA received information from Mrs. Lily that she had found a lost adult female boxer by her road. She took care of it, providing shelter and food. Later on, KSPCA identified the owner as Karthik and that the name of the dog was Boxy. It was decided to safely return Boxy home after her spaying was done.

On 16th of October, Lily brought Boxy to KSPCA. On examination, it was found that she was healthy, in heat, and had a wound on her ear that was healing. She was dewormed and vaccinated. Spaying was done on 20th of October. The next day, she was returned to her home healthy and with a vaccination card.

3. Foster Pups at Vera's

On 12th of September, we got a call from an informer from police station stating that a mother dog had been killed by a bison, leaving seven one-week-old puppies motherless. The puppies were dropped at Janani's home and later picked up by Vera and George for further foster care. All the pups were brown in color, of which three were male and four were female. They were named Alfie, Bert, Charlie, Daisy, Elsy, Fran, and Ginger.

For about 14 days, they were fed by syringe every 4 to 6 hours using a magic formula. They were kept warm with hot water bottles, and cotton was used to stimulate them for defecation. Later on, after 2 weeks of age, they were dewormed and fed with a mixture of puppy Pedigree, curd, boiled eggs, and chicken gravy. At 2 months of age on 21st October, the KSPCA team, including Dr. Aneeka and Harinath, went and vaccinated them at Vera's place. Currently, the chubby and healthy puppies are waiting to get adopted.

4. Zara

An approximately 45-day-old, black-and-white female pup was abandoned at the KSPCA facility on 20th of October 2024. On examination, the puppy was found to be healthy. The puppy was vaccinated and dewormed. She was named Zara and was provided with food and shelter. On 28th of October, she was adopted by Sahayarani to a lovely home.

5. Rescue at Anandagiri Street

On 23rd of October, KSPCA received a call from Mr. Chelladurai saying that there was a hurt dog near his house. The KSPCA team, including Mr. Johnny and Dr. Aneeka, went to the location and spotted the dog. On examination, it was found that the male street dog had a fractured left femur with inflammation. A dog bite wound was present on the neck. The dog was treated with anti-inflammatories, painkillers, and an anti-rabies vaccine. Soft bandaging was done. Mr. Chelladurai agreed to take care of the dog until it recovers. Follow-up treatment was done.

6. Marco and Lukie

On 24th of October, two black puppies, one male and one female, about 2 months old, were abandoned behind the KSPCA facility. They were named Marco and Lukie.

They were dewormed, vaccinated, and provided with food and shelter. Both these pups are waiting to find a home forever.

7. Pup with Amputated Hindlimb

On 27th of October, a 2-month-old, brown, male pup was abandoned in front of the KSPCA gate. On examination, it was found that the pup was healthy, although amputation of the right hindlimb had occurred below the tarsal joint. The amputated leg showed great signs of healing, and the pup was able to walk freely

with his three limbs. The limb was dressed and bandaged. The pup was dewormed, vaccinated, and provided with food and shelter.

VOLUNTEER WORK BY KIS STUDENTS

As part of the CAS project, Grade 11 and 12 students from Kodaikanal International School (KIS) volunteered at the KSPCA facility. During their time, they helped with various tasks, including caring for the animals and maintaining the premises. They also made updates and managed the KSPCA social media accounts, increasing the organization's online outreach and visibility.

ABC SURGERIES OF OCTOBER 2024

- Veterinary surgeon: Dr. Aneeka Antony
 - Male = 4
 - Female = 11
 - Total ABC's = 15

Total ARV in the month of October 2024 = 18

Total MCV in the month of October 2024 = 27

Total op = 92 Total rescues = 14

Balance as of OCTOBER 31ST 2024 Rs 82381.12

Cash in hand Rs 9712

NOVEMBER 2024

Total number of outpatient cases attended were 121.

- Medicine cases: 99
- Surgery cases: 21
- Gynaecology cases: 1

RESCUE CASES

1.Bunty

On 1st of November 2024, an approximately 2 month old, female, country breed dog was abandoned inside the gate of KSPCA facility. On observation it was found that she was walking on three legs. It was found that she had a fracture on her right hindlimb that had started healing. A soft bandaging was done to assist the healing. In a few weeks she recovered fully and started walking normally on four legs. We named her Bunty. She was dewormed and vaccinated. On 27th of November Mr. Lokesh from Moonjikal adopted little Bunty to her new home.

2. Flying Squirrel

On 6th of November 2024, a female flying squirrel was brought to KSPCA facility by Mr. Gawtham of forest department from Coaker's walk. He said that the squirrel was found hurt one day back. On examination, the squirrel was in a pathetic condition with hypothermia and lacerated wounds on medial and lateral aspects of the hindlimb. The wounds were dressed and sutured. To stabilize the squirrel RL and antibiotic were given subcutaneously under the consultation of a wildlife veterinarian. Hot water bag and heater was provided to ensure warmth. The squirrel was later handed over to the forest department.

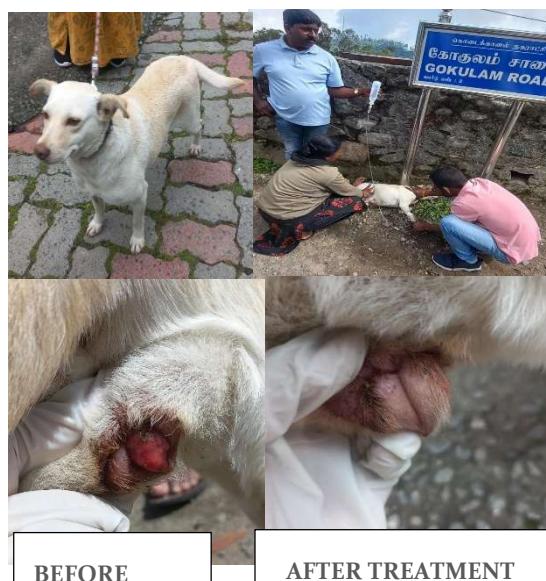

3. Malabar Giant Squirrel

On 7th November 2024, Mr. C. Premkumar from the forest department brought a malabar giant squirrel which had bleeding. The squirrel was a female, who was alert and active. On examination, a 2cm long tear was found dorsal to the anal opening. Under the advise of wildlife veterinarian, the wound was dressed and sutured under local anaesthesia. On the same day the squirrel was handed over to the forest department for further observation and release.

4. White dog with TVT

On the 9th of November 2024, with the help of informer Esther, an already neutered female street dog who was diagnosed with TVT was given the first shot of vincristine. One week after the first dose the tumour reduced very well. A second dose of vincristine was given on 16th of November after which the tumour fully reduced. She freely and happily roams the streets of Observatory now.

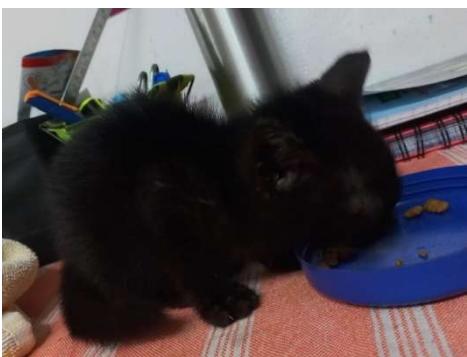

5. Street dog from Anandagiri 3rd street

On 12th of November 2024, Mr. M. Srider from Anandagiri rescued and brought a male, adult street dog. On arrival it seemed that the dog was heavily bleeding. On examination it was found that the dog had a maggot wound on the right hock joint which was bleeding. There was inflammation on the limb and fracture was suspected. The dog was treated with anti-inflammatories, antibiotics and painkillers. The maggots were removed, bleeding was stopped and the leg was soft bandaged. Once the wound healed completely and the dog learned to manage on three legs, it was released back to Anandagiri 3rd street with the help of Mr. M. Srider on 21st of November.

6. Shadow

On 14th of November, a full black female kitten of about 2 months old was abandoned at Mrs. Selvarani's place. She brought the kitten to the facility. The kitten was healthy on examination. The kitten was named Shadow. Shadow was dewormed and provided with adequate nutrition. She spent her time playing with the in-house kitten Ginger. She got adopted by Mr. Karvin on 21st of November.

7.TEESA

On 15th of November 2024, Mr. Suresh rescued an approximately 2 month old female pup from Moonjikal. The pup was limping on its left hindlimb. On examination, it was found that she had a fracture in the distal end of the left femur on which soft callus formation. Soft bandaging was done with splints to assist healing. She was vaccinated, dewormed and provided with food. She now happily walks on all four legs showing complete healing.

8. Lilly, Luna and Linda

Three identical female pups were abandoned at KSPCA on 15th, 16th and 17th of November. They were named Luna, Lilly and Linda respectively. Two of them had localised tail alopecia, otherwise they were healthy. All of them were vaccinated and dewormed. Linda got adopted by Mr. Muthu to her new home. The other two pups are ready for adoption.

9. Community dogs at Observatory road

On 16th of November, with informer Ester's information two 5 month old pups at Observatory road were vaccinated with Anti-rabies vaccine first dose. It was planned to do the booster dose and the multicomponent vaccination in the coming days. Plan for neutering the pups once 6 months of age too was made.

10. LEO AND LEXI

On 22nd of November, two pups one male and female were abandoned at the facility. Both of them were healthy. The black and white male pup was named Leo. The white female pup was named Lexi. Both of them were dewormed and vaccinated. On 23rd November Leo was adopted by Mr. Muthu. Lexi still awaits a new home.

11. Goldie

On 26th of November, Mr. Romari, a localite, rescued and brought a pup from heavy traffic. The 2 month old female brown colored pup was named Goldie. Goldie was healthy on arrival. She was dewormed and vaccinated. She lives joyfully in the facility awaiting her new home.

12. Caramel

On 27th of November, Miss Parvathi rescued a 3 month old female pup from Shenbagannur. The pup was having carpal joint laxity on both the forelimbs. The forelimbs were bandaged with splints. The puppy was provided with Calcium supplements. She was named Caramel. Caramel was vaccinated and dewormed. She is on her path of recovering full mobility on both of her forelimbs.

FOSTERING

Additional fostering at Vera's place

- Merlin, 2 month old female pup
- Sandy, 2 month old female pup
- Triple coloured, 2 month old female pup
- Goldie, 2 month old female pup
- 4 x 1 month old kittens

ADOPTION

2 Kittens Adoption

Post-Mortem Examination of Elephant

On November 17, 2024, KSPCA members, including Mrs. Janani and Dr. Aneeka, joined a

team of wildlife veterinarians, an animal husbandry department veterinarian, and forest department officials to conduct the **second elephant post-mortem this month**. The examination took place at **Moongil Kaadu**, near Pallangi Kombai.

- **Details of the Second Elephant:**

- The carcass was identified as a **male elephant**, estimated to be **above 45 years old** based on teeth structure.
- The body was lying on its **right side**, showing advanced decay, with **peeling skin** and the presence of insects. Death was estimated to have occurred **seven days earlier**.

- **Measurements Taken:**

- Trunk length
- Tusk length
- Tail length
- Foot diameter

- **Post-Mortem Findings:**

- The internal organs, including the **heart, liver, and kidney**, were found to be **putrefied** due to decomposition.
- The stomach contained no foreign objects.

- **Sample Collection and Disposal:**

- Samples from the **heart, liver, and kidney** were collected in **10% formalin** for further testing.
- **Stomach contents** were collected in **normal saline** for examination.

- The **tail, along with its hairs, was burned** as per protocol.
- The **tusks** were carefully removed, measured, and handed over to the forest department for safekeeping.
- The carcass was buried at the same site after the procedures were completed.
- **Preliminary Conclusion:**
 - The elephant is believed to have died of **natural causes related to age**, possibly due to **slipping and falling from a height**.
 - Final conclusions are pending laboratory results.
- **Details of the First Elephant Death (Earlier This Month):**
 - The first elephant death occurred in the **Perumalmalai area**.
 - This elephant was believed to have died due to injuries sustained in a **tusker fight**.

DECEMBER 2024

Total number of outpatient cases attended were 107.

- Medicine cases: 93
- Surgery cases: 13
- Gynaecology cases: 1

Rescue Cases:

1. Jingly:

On 22nd November 2024, a female stray dog named Jingly was reported with TVT. Based on the informer Naveena's report, Jingly had littered in August 2024. The KSPCA team, including Mrs. Janani, Mr. Harinath, and Mr. Johnny, rescued her from Observatory Road and brought her to the facility.

- She was spayed and vaccinated for rabies on 25th November by Dr. Aneeka.
- Treated with Vincristine injections on 7th, 14th, and 21st December.
- The tumour significantly reduced.
- She was released on 22nd December and is now happily roaming her area.

2. Pomeranian Dog Rescue:

On 2nd December 2024, KSPCA received a call about a Pomeranian dog lying roadside near Kalaraimedu.

- The KSPCA team (Mr. Harinath, Mr. Johnny, and Dr. Aneeka) rescued the dog.
- Examination showed no external injuries or signs of illness.
- Enquiries revealed the owner, and the dog was reunited with the family.
- The owner reported the dog had been suffering from seizures and ran away the previous day.

- Anti-seizure and nerve-support medications were prescribed by Dr. Aneeka.

3. Imli (CLEO) (Cat):

On 30th December 2024, a female cat was rescued from Sai Shruthi Ashram by Mr. Johnny.

- The cat was paralyzed in both hindlimbs, possibly due to a road accident.
- Treated for flea infestation and dewormed.
- Wounds on both hindlimbs were dressed and healing.
- Given anti-inflammatory and nerve-support medications.
- Imli is being monitored at the facility, with hopes of recovery.

Adoption and Fostering:

ADOPTIONS:

FOSTERING AT FACILITY:

- **Additional Fostering at Vera's Place:**

- Four kittens (Toffe, Oreo, Grace, Caramel – approximately 30 days old).
- Puppies: Evelin (45 days old), Bonie (45 days old), Blacky (50 days old), Steffy (35 days old).

Dog Bite Incident – Indiranagar:

On 3rd December 2024, KSPCA was informed by the municipality about a severe dog bite incident in Indiranagar, Kodaikanal.

- A young boy sustained third-degree wounds on 30th November, requiring stitches.
- The boy was hospitalized only on 1st December for treatment.
- The incident reportedly occurred when the boy bent down to pick something up, which may have triggered the dogs to attack. The steep slope and bushy surroundings of the area might have worsened the situation.
- The KSPCA team, including Dr. Aneeka, Mr. Johnny, and Mr. Harinath, visited the area with municipal staff and the ward councillor.

- Two dogs were caught, neutered, and vaccinated and released on 5th December.
- Efforts to locate and assess the remaining dogs in the area are ongoing, but steep slopes and thick bushes make this challenging.

JANUARY 2025

Total number of outpatient cases attended: 85

- Medicine cases: 57
 - Surgery cases: 26
 - Gynaecology cases: 2
-

Rescue Cases:

1. Mallie:

- On 4th January 2025, two unidentified women abandoned a male pup (approx. 2 months old, brown hair) at the facility gate late in the evening.
- The pup was examined and found healthy.
 - Dewormed, vaccinated, and provided with food and shelter.
 - Named **Mallie** and adopted on 9th January by **Mr. Maruthupandi** from Pallangi.

2 & 3. Bryant Park Rescue:

On 13th January 2025, KSPCA received a report from **Mr. Balaji** about two dogs near Bryant Park experiencing breathing difficulties.

- The KSPCA team (**Mr. Johnny & Mrs. Janani**) reached the location.
- After veterinary consultation, both **adult brown dogs** were treated accordingly.

4. **Tommy - The Pomeranian:**

- On 21st January 2025, a **3-year-old male Pomeranian** was confiscated from KC Homes after being repeatedly tied out in the rain despite warnings.
- Tommy was vaccinated, neutered, dewormed, and provided with food and shelter.
 - Now friendly and waiting for adoption.

5. **Rescue near Kurinji Andavar:**

On 24th January 2025, **Mrs. Haritha** rushed a suspected poisoning case to the facility.

- The dog, an **adult female street dog named Ammu**, exhibited salivation and incoordination.
- Treated with IV drips and poisoning antidotes under monitoring.

- Fully recovered and walked out of the facility with a **reflective collar**.
- Medication instructions were provided to Mrs. Haritha for follow-up care.

6. Rescue from Naidupuram:

On 28th January 2025, **Mr. Santhosh Kumar** brought in a street dog that was hit by a vehicle.

- Male dog sustained **lacerations on both forelimbs**, but no fractures or nerve damage.
- Wounds were dressed, bandaged after sedation, and given painkillers and antibiotics.
- Follow-up treatment was provided.

- Mr. Santhosh Kumar volunteered to care for the dog until full recovery.

7. Rescue from Kodaikanal Town:

On 28th January 2025, KSPCA received a call from **Mr. Jayaraman** about a dog hiding under a shop staircase for a day.

- The KSPCA team (**Dr. Aneeka & Mr. Johnny**) rescued the dog.
- **Black and white male stray dog with hindlimb paralysis** (likely due to an accident).
- Currently undergoing **anti-inflammatory and nerve-support treatment** under KSPCA foster care.

8. Luke:

A male brown pup was found abandoned by the roadside by **Mrs. Janani**.

- Named **Luke**, found healthy on examination.
- Dewormed, vaccinated, and given to **Vera for foster care**.
- Awaiting adoption.

9 & 10. Kiki & Kiara:

Two **female pups (approx. 2 months old)** were rescued by **Mrs. Sylvia** and brought to the new KSPCA foster home.

- Both were healthy, dewormed, vaccinated, and sheltered.
- Later adopted by **Mr. Nandakishore from Poombarai.**

Adoptions:

Adoptions:

1. Kiki
2. Kiara
3. Evlin
4. Bonie

Fostering:

Fostering:

- Luke (puppy) awaiting adoption at foster home.
- Tommy (Pomeranian) awaiting adoption.
- Hindlimb-paralyzed stray dog under treatment.

Rabid Dog Case – Anandagiri 2nd Street:

On 29th January 2025, SI Thyagarajan reported a suspected rabid dog that bit 3-4 people.

- The KSPCA team attempted to capture the dog with assistance from SI Thyagarajan, SI Marimuthu, ward members, municipality staff, fire force, and local residents but was unsuccessful.

- **Antirabies vaccinations were administered to:**

- 3 puppies of the rabid dog
- neighbouring dogs
- 1 bitten puppy (post-bite vaccination & medications)
- A puppy from 7th street that was bitten by the dog. The pup was provided with medications, post bite vaccination and the owners were educated on things to take care including follow up vaccinations.

- 2 Pomeranians from Indiranagar (post-bite treatment)
 - On 30th January, the suspected **rabid dog was found dead** and tested **rabies-positive** using a rapid test kit.
 - **Municipality staff** safely disposed of the carcass.
 - With local assistance, **30 dogs in the area were vaccinated** on 30th January, followed by additional ARV doses on 31st January and 1st February.
 - **Total ARV given: 45 doses.**
 - Owners of bitten dogs continued **post-bite schedules** at the **Government Veterinary Hospital**.

FEBRUARY 2025

Total number of outpatient cases attended: 143

- Medicine cases: 127
- Surgery cases: 14
- Gynaecology cases: 2

Rescue cases: 21

RESCUE CASES

1 & 2. Helen and Martha

On 1st February 2025, Mrs. Vera found two approximately 2-month-old female puppies wandering in the middle of Lake Road near Mercy Home. Both were in good health, with brown and tan coats. She brought them into foster care at her residence, where they were provided with adequate food, shelter, and affection.

The pups were dewormed and vaccinated, and were named Helen and Martha. After two

weeks of care and socialization, they found a loving forever home. On 14th February, both were adopted by Mr. Vaibhav, and have since settled into their new life in Bharatinagar.

3-10. Rescue Pups at Claverack Compound

On 5th February 2025, KSPCA received a call from Mrs. Kalyani, a staff member at Kodaikanal International School (KIS), reporting a litter of stray puppies born in December 2024 in the Claverack compound. With the pups now around 7 weeks old, she sought assistance with their care and adoption.

The KSPCA team promptly visited the site and found five puppies—three females and two males. All were given a thorough health check-up, dewormed, vaccinated, and treated for flea infestation.

Mrs. Kalyani agreed to continue fostering the pups for an additional week. During this time, adoption efforts were coordinated, and by the end of the week, all five puppies were successfully adopted into loving homes.

In addition to the puppy rescue, three adult stray dogs regularly seen around the compound were caught and vaccinated with the anti-rabies vaccine, with cooperation from Claverack residents.

11. Street Dog Poisoning – Anandagiri 2nd Street

On 7th February 2025, KSPCA received an urgent call from Mr. Chelladurai, reporting that a brown adult female street dog on Anandagiri 2nd Street had suddenly become weak and was frothing at the mouth. The dog was immediately transported to the KSPCA facility for emergency care.

Upon examination, the dog displayed symptoms of ataxia, excessive salivation, and hyperthermia, raising suspicions of poisoning or heat stroke. Prompt treatment was administered, including fluid therapy, medications, and cold compresses to stabilize the dog.

Later that day, a second round of medications was administered on-site as a preventive

measure. The rescuers were advised to keep the dog under observation for another 24 hours.

Thanks to the swift intervention and follow-up care, the dog made a full recovery and is now healthy and happily roaming her usual street.

12. Chico

On February 23, 2025, Vera rescued a 6-week-old male pup who was severely underweight and infested with fleas and ticks. He was promptly dewormed, vaccinated, and treated for ectoparasites. Named Chico, the little pup has since made a full recovery. Now healthy and energetic, Chico spends his days running and playing at his foster home with Vera, eagerly waiting for a forever family to adopt him.

13. Blacky

On February 24, 2025, Mr. Viji and his son rescued a 4-month-old female kitten who was being chased by dogs and brought her to our facility. Thankfully, she was uninjured and in good health. After being dewormed and vaccinated, she joined two other cats in foster care. Affectionately named Blacky, she's now a confident little explorer—roaming the area by day and returning to the facility each evening. Blacky is still looking for a loving forever home.

14-18. Abandoned Puppies from Annanagar

On February 24, 2025, Mr. Raheem from Annanagar alerted KSPCA about a heartbreaking case—six puppies abandoned in a sack. One male pup was fortunately adopted before the others arrived at Vera's home. The remaining five, all around 3 weeks old and female, were taken into foster care. Though abandoned, they were found to be in good health. They were promptly dewormed and are now receiving proper nutrition and care in a safe environment. These little ones are thriving at Vera's and waiting for kind families to give them the love they deserve.

19 & 20. Pups Abandoned Inside the Facility

On February 26, 2025, two 6-week-old puppies were found abandoned inside the KSPCA facility—one was a brown male, and the other a black and tan female. They were both dewormed, vaccinated, and cared for with nutritious food and fresh water. Their story took a happy turn when both pups were adopted into loving homes in March 2025.

21. Tommy – TVT Case

On February 26, 2025, Mrs. Asha, a neighbor, alerted us about Tommy, a beloved community dog, who was bleeding from his genitals. With her help, Tommy was safely caught and sedated for examination. He was diagnosed with a Transmissible Venereal Tumour (TVT), which was the cause of the bleeding. He also appeared weak in the days that followed. Tommy underwent weekly TVT treatment, and after just two sessions, the tumour had significantly reduced. He has since recovered well and is back to his cheerful self, faithfully watching over the area around the facility.

MARCH 2025

Total number of outpatient cases attended: 124

- Medicine cases: 105
- Surgery cases: 16
- Gynaecology cases: 3
- **Total Rescue Cases: 16**

RESCUE CASES:

1. Cisco

On March 3rd, 2025, a small cream-colored male puppy, approximately 2 months old, was rescued from the roadside by Mrs. Vera. The pup, later named Cisco, was found to have bloody diarrhoea on the night of his rescue. He was immediately rushed to the KSPCA facility, where he was diagnosed and treated for a parvovirus infection.

Cisco made a full recovery within a few days. On March 17th, he received his first round of vaccinations. Cisco is now a lively and playful little dog, enjoying his time in the foster home garden as he waits for a loving forever home.

2 & 3. Dolu & Bolu

On March 5th, 2025, two 1.5-month-old female puppies were rescued from Bear Shola Road by Mrs. Ramsana and her son. The pups, later named Dolu and Bolu, were in good health upon arrival. They were promptly vaccinated and dewormed on the same day.

Initial fostering was provided by Dr. Aneeka at the KSPCA facility, after which the puppies were shifted to the foster home of Mrs. Janani. These quiet and adorable pups found their forever home on March 14th, 2025, when they were adopted by Mr. Johnson from Kookal.

4. Rescue from Moonjikal

On March 3rd, 2025, KSPCA was alerted by Mr. Muthu about an injured street dog in Moonjikal that was unable to move. Volunteer Mr. Romari responded promptly and brought the adult male dog to the KSPCA facility.

Upon examination, the dog was found to have paralysis in his right hindlimb, making movement extremely difficult. Additionally, signs of jaw champing and temporal twitching indicated that he was a survivor of Canine Distemper (CD). A special isolation area was arranged for his recovery.

Dr. Aneeka treated him with painkillers, anti-inflammatory medication, and nerve support. With dedicated care, the dog gradually regained mobility and was soon able to walk on all four limbs. He was vaccinated and neutered, and following a successful recovery, he was released back in Moonjikal on March 18th, 2025, once again by volunteer Mr. Romari.

5, 6 & 7. Pups from Fernhill Road

On March 15th, 2025, three pups were rescued from Fernhill Road by Kamala and brought to the foster home at Mrs. Janani's residence. Two of the pups were male, black and tan in colour, while the third was a brown female. All three were found to be in good health upon arrival.

They were promptly dewormed, vaccinated, and given food and shelter. Just over a week later, on March 23rd, all three pups found their forever home with Mr. Karupan and his family, who welcomed them into their home in Bharti Annanagar.

8. Tyson

On March 10th, 2025, a friendly black and tan male street dog, approximately one year old, was rescued from Observatory and brought to the KSPCA facility. He was named Tyson. Tyson was vaccinated and neutered upon arrival, and provided with food, shelter, and care at the facility. Just four days later, on March 14th, he was adopted by Mr. Anand of Kookal, who welcomed Tyson into a loving new home.

9. Max

On March 10th, 2025, Max—a senior, black-coloured street dog—was rescued with the help of the WVS team, including Mr. Sam, along with KSPCA team members Mrs. Janani, Mr. Harinath, and volunteer Ms. Prasanna. Max, a familiar sight around Lake Road and Seven Road Junction, had a large pedunculated tumour on the ventral side of his thorax. Under the guidance of Dr. Shivani from WVS, diagnostic tests including a blood panel and fine needle aspiration were performed. The results showed no signs of malignancy. On March 22nd, KSPCA's veterinary surgeon Dr. Aneeka Antony successfully carried out the tumour removal surgery, with assistance from Mrs. Rajalakshmi (KSPCA vet assistant). Post-operative care included regular dressing and medication for both the surgical site and a concurrent bacterial skin infection. Max made a full recovery, and sutures were removed on March 31st. He is scheduled for release in the first week of April 2025.

BEFORE Surgery AFTER 1 WEEK POST SURGERY

10. Pony from Golf Club

On March 14th, 2025, KSPCA received a report of an injured pony near the Golf Club. The pony, believed to have been abandoned, had sustained a large lacerated wound on its right thigh following an attack by a bison. Additionally, the animal was found to be suffering from cataracts.

KSPCA, along with the WVS team, rushed to the site where Dr. Shivani performed initial wound cleaning and medication. The next day, arrangements were made to transport the pony to Backwater Sanctuary in Bangalore for advanced treatment and long-term rehabilitation. On March 15th, the wound was redressed by the KSPCA team, and the pony was safely loaded for transport. Generous public donations helped cover transportation expenses.

At the sanctuary, the pony is recovering well and showing signs of steady healing.

11 & 12. Dora and Buji

On March 17th, 2025, KSPCA received a call from Mrs. Rathi near the Kurinji Andavar Temple requesting assistance with two pups she had taken in. Dr. Aneeka and Mrs. Janani visited the location and found two healthy, four-month-old female puppies—one fawn and the other fawn with white markings.

The pups, later named Dora and Buji, were dewormed and vaccinated on the spot. Mrs. Rathi agreed to foster them temporarily while KSPCA helps find them permanent homes. Both pups are currently under her care, enjoying a safe environment while they await adoption.

13. Anandagiri Pup

On 18th March 2025, Mr. Anguraj rescued a 1.5-month-old male puppy from 5th Street, Anandagiri, and brought him to the KSPCA facility. The pup was brown in colour and in good health on arrival. He was immediately dewormed and vaccinated, then sent to foster care at Mrs. Janani's home where he received food, shelter, and care.

Just two days later, on 20th March, the little pup found a loving home—he was adopted by Nithya Bala and now lives happily at Amman Cottage.

14, 15 & 16. Pups Fostered at Deepak's

On 22nd March 2025, Mr. Deepak rescued three approximately 2-month-old pups and brought them to the KSPCA facility. The trio included two females and one male, with distinct colourings—black, brown, and a mix of black and tan.

All three pups were healthy on arrival. They were vaccinated, dewormed, and provided

with vaccination cards. Mr. Deepak kindly agreed to foster them at his home until suitable adopters could be found. Within a few days, each of the three pups found their forever homes through adoption.

Equine Camp – March 2025

KSPCA, in collaboration with WVS (Ooty) and with the support of the **Animal Husbandry Department, Municipality, Town Panchayat, Forest Department, and Kodaikanal International School**, successfully conducted the **10th Bi-Annual Equine Camp** (camp 19) on **11th, 12th, and 13th March 2025**.

The camp was held across major equine-working areas including **Lakeside, Golf Club, Fairy Falls, Poombarai, and Mannavanur**.

Services Provided:

- Vaccination
- Deworming
- Complete health check-ups

Equine owners were educated on:

- Humane handling
- Basic first aid
- Preventive care

- Legal responsibilities of ownership

Participation Summary

- **Total Equines Attended:** 42
- **Total Owners Reached:** 28
- **Equines Dewormed and Vaccinated:** 42
- **Medical Cases Treated:** 2

The camp received positive feedback from the community, with many owners expressing appreciation for the free treatment, guidance, and effort to ensure the well-being of their animals. The next camps will be in the month of April in Palani, Pannaikadu and Machur area.

Special Medical Cases at the Equine Camp

- Tumour Removal Surgery:

A male horse belonging to Mr. Surya had a tumour on the left lateral side of the neck. The surgery was performed during the camp by Dr. Shivani, followed by medication. Sutures were removed after 12 days by Dr. Aneeka, and the site is currently healing well.

- Severe Laceration Treatment:

Another horse owned by Mr. Rajesh Kanna was found with a large lacerated wound on the left thigh. The wound was dressed and treated with medications by Dr. Shivani, with follow-up care provided by Dr. Aneeka. The wound is healing satisfactorily.

FOSTERING:

ADOPTION

Other Adoptions:

- Chico at Vera's
- Rest 3 black pups at Vera's
- 3 pups at Deepak's foster care
- Xena ADOPTED BY Jessica and Priyank

-

KSPCA AGM Minutes

Date: March 21, 2025

Time: 11:00 AM

Mode: Zoom

Members Present:

- Janani Krishnamurthy
- Ravi Kumar
- Dr. Aneeka
- Azhar
- Nanda
- Preethi
- Ranjini Deepak
- Sukanya
- Dr. Ramana
- Bala

Meeting Minutes:

1. Welcome Note

- Janani Krishnamurthy, Managing Trustee of KSPCA, welcomed all members and provided an overview of KSPCA's journey and milestones over the years.

2. 5-Year Report and Financial Statement for 2024-25

- Ravi Kumar presented the 5-year report along with the financial statement for the year 2024-25.
- The report highlighted KSPCA's growth, achievements, and financial health.

3. Adoptions and Fosters

- The meeting reviewed the adoption and fostering activities.
- Successful adoptions from foster homes and the facility were appreciated.
- It was noted that some special needs animals will remain permanent residents under KSPCA's care.

4. Rescues and Emergencies

- Members discussed the rescue and emergency cases managed during the year.

- Key success stories were shared, reflecting the dedication of the rescue team.

5. Ongoing and Upcoming Projects

- Janani Krishnamurthy presented an overview of current and planned projects:
 - Bi-Annual Equine Welfare Camp:
 - KSPCA continues to organize two equine welfare camps each year.
 - The next camp (Camp 20) is scheduled for September 2025.
 - Mass ABC Drives:
 - A two-week mass Animal Birth Control (ABC) drive will be conducted every month.
 - KSPCA will hire additional dog catchers from other NGOs to support the expanded effort.
 - Mission Rabies Campaign 2025:
 - Following the huge success of last year's campaign, the next Mission Rabies drive is scheduled for May 5–10, 2025.
 - In collaboration with Mission Rabies India, KSPCA will also hire a new Surveillance Officer and Education Officer.
 - This will allow for continuous education programs to raise rabies awareness and systematic recording of dog bite incidents throughout the year.

6. Facility Extension

- Updates were provided regarding facility expansion efforts.
- The District Collector visited the facility and has assured support for the extension, with cooperation promised from the Municipality.
- The MoU with the Municipality has been completed.
- Awaiting the TNAWB grant for facility development and funding.
- Ravi Kumar will send a follow-up reminder to TNAWB regarding the grant.

7. MoU Signing, FCRA Approval, and Fundraising

- Updates on the pending FCRA approval were discussed.
- It was confirmed that the MoU with the Municipality has been signed.
- Ranjini Deepak volunteered to assist with future fundraising and outreach through social media and events. NEW csr proposal was discussed as Kspca now has CSR number.

8. New Trustee/Committee Member Additions

- A resolution was proposed by Janani and seconded by Ravi to induct new committee members.
- Pravin Shanmughanandam was formally proposed and welcomed into the KSPCA committee.

9. New Logo and Registration

- The newly designed KSPCA logo was shared with all members.
- It was noted that the new logo still needs to be officially registered.
- Ravi Kumar will oversee the logo registration process.

10. Addressing Illegal Breeding and Pet Registration

- Concerns regarding illegal breeders were discussed.
- The need for proper pet registration by the Municipality was emphasized.
- District SPCA has been informed about the areas and numbers.

11. Any Other Matters

- Future plans for community awareness programs and volunteer drives were briefly discussed.

12. Thank You Note

- Closing remarks were given by Janani Krishnamurthy and Ravi Kumar, thanking all participants and emphasizing a collective commitment to animal welfare in Kodaikanal hills.
