Time schedule

Activity	Time
Team Briefing at Mess Hall	6.30 -7.00
Breakfast (Scooby's café)	06:45 – 07:15
Leave to facility	07:15 – 07:45
Prep at facility	07:45 – 08:00
Travel to Vaccination sites	08:00 – 10:00
Morning session	10:00 – 13:00
Lunch (on field)	13:00 – 14:30
Afternoon session	14:30- 17:00
Team return to facility	17:00- 19:00
Unpack & Repack	19:00-19:30
Back to KCC & Padma -Dinner	20:00 – 21:00

Schedule
Team first induction: May 4, 2025
Teams arrive: May 3, 2025
Full team briefing: May 4, 2025
Inauguration: May 4, 2025
Vaccination days: May 5-10 2025
Certificate Distribution: May 10, 2024
Vaccination Timing
Total break time – 1.5 hours
Total vaccination time – 5.5 hours
Total preparation time – 1 hours
Total travel time – 4-5 hours

Day planning

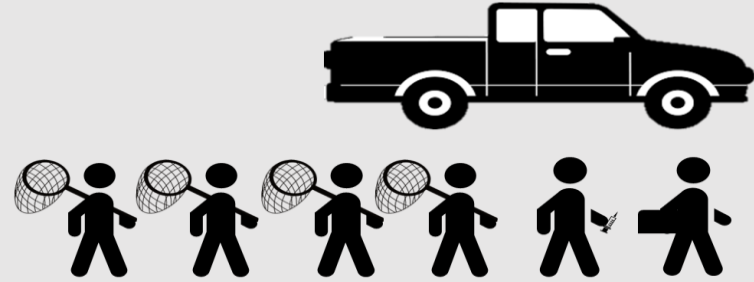

1. File with maps, contact details of local representative provided to each team
2. 30mins to 2 hours to reach the village
3. Meet the representative and vaccinate dogs at static point
4. Local representative will take the teams around the wards
5. Enter data in the WVS app
6. Cover the area on foot & vehicle
7. Assembly point GPS at each village shared with each team member
8. Lunch in the field – TL to pay the bill if not provided by local body
9. Daily Target: vaccinate 70-100 animals a day

Vaccination kit

- File with maps, local contact details, GPS location of assembly point
- Cooler boxes – 1, Vaccines – 100 doses
- 3ml Syringes – 10, 22G black Needles – 120
- Ivermectin 10ml – 1 (mange), 1 strip of ivermectin tablet (dewormer)
- Examination gloves 1 box, Animal Marker - 1
- First aid kit - cotton, swab, sanitizer, povidone iodine cream & lotion, Dettol, paper soap, micropore tape
- Vaccination cards, Pen, education leaflets, emergency contact list
- Nets, Salt (for leeches), Raincoats & drinking water
- Permission letters

Kodaikanal Launches “RABIESFREE KODAIHILLS” – A Free Mass Anti-Rabies Vaccination Campaign :

Kodaikanal : On 4th May 2025, the Kodaikanal Society for Protection and Care for Animals (KSPCA), in collaboration with Mission Rabies India, launched the “RABIESFREE KODAIHILLS” Free Mass Anti-Rabies Vaccination Camp across the scenic hills of Kodaikanal. The event was inaugurated by Dr. J. Radhakrishnan, IAS, Additional Chief Secretary, Chairman & Managing Director of TANGEDCO, and Principal Secretary for the Civil Supplies Department, Govt of TN.

Dr. Radhakrishnan personally administered the first vaccination, formally launching this critical public health drive.

The campaign is being held from 5th to 10th May 2025, covering the entire Kodaikanal region. A specially developed mobile application by World Veterinary Service (WVS) is being used to track and follow up on all vaccinated dogs, ensuring accuracy and accountability.

Support from Key Government Departments : This initiative has received strong support and collaboration from various departments, local bodies, and NGOs including:

Kodaikanal Wildlife Sanctuary, Dindigul District Administration, Revenue Department, Block Development Office, Animal Husbandry Department, Kodaikanal Municipality, Block medical officer, Chief medical officer

Their presence and involvement at the inaugural event reflect the united commitment to eliminate rabies in the region. Kodaikanal: On the Path to Becoming a Rabies-Controlled Zone

Kodaikanal is already on track to being recognized as rabies controlled zone with no human rabies cases reported in recent years. (since 2016) With just a few more months of intensified surveillance and increased public awareness efforts, the region is poised to be officially declared a rabies-controlled region — setting a benchmark for other districts in Tamil Nadu.

In 2024, over 3,800 dogs were vaccinated. This year, KSPCA & Mission Rabies India aims to vaccinate more than 5,000 dogs, furthering its mission to make Kodaikanal a rabies-free zone. Dr. J. Radhakrishnan commended KSPCA's and Mission Rabies efforts, emphasizing the importance of extending such successful programs to areas like Greater Chennai Corporation to reduce dog bite incidents and save lives.

Coimbatore, 5th May 2025: Electric vehicle (EV) ownership in India is gaining momentum, driven by the clear cost advantages it offers over traditional internal combustion engine (ICE) vehicles. Despite the slight

higher initial acquisition cost, the long-term benefits make EVs a smart choice for buyers seeking sustainable and cost-effective mobility solutions. TATA.ev leads the charge in bringing price parity between EVs and comparable ICE models. With lower running and maintenance costs, EVs are the future and redefining the economics of car ownership.

According to the VAHAN data, the electric passenger vehicle segment has seen a remarkable surge, with retail sales reaching over 89,000 units in CY 2024, marking a 22% increase from the previous year. This growth reflects a broader trend in the EV market, which saw a total of 19 Lakh units sold, representing a 27% overall increase. Besides its economic benefits, this rising consumer interest in EVs is also driven by the

expanding support from both manufacturers and government initiatives. The Financial Edge of EVs

A closer examination of the costs associated with EV ownership reveals substantial savings across multiple fronts. The total acquisition cost for models like the Nexon.ev is becoming increasingly competitive, as battery prices continue to decline. When compared to equivalent petrol, diesel, hybrid, and CNG vehicles, the Nexon.ev offers a favorable cost proposition, making EVs more accessible to a broader range of consumers.

Beyond the initial purchase, the ongoing cost benefits of EVs become even more apparent. Charging an EV is substantially more economical than fueling an ICE vehicle. Additionally,

lower maintenance costs due to fewer moving parts further enhance the appeal of EVs as a cost-effective option. The integration of rooftop solar systems adds another layer of savings, allowing EV owners to achieve zero cost mobility and reduce energy costs by utilizing renewable energy for charging, making the shift to electric mobility even more advantageous. EVs demonstrate significant acquisition cost savings compared to premium hybrid and CNG options, aligning with consumer priorities of affordability and sustainability.

Range and Fuel Costs Comparison

Another significant advantage of EVs is their efficiency and lower fuel costs. EVs stand out with their low per-kilometer energy cost, especially when compared to traditional fuels like petrol and diesel. This is a critical factor for consumers seeking to reduce their daily commuting expenses.

Understanding Cost of Ownership in Detail

One of the key advantages of owning an EV is the significant reduction in daily operating costs, which becomes evident when examining the granular details of fuel consumption and maintenance.

Under instruction of my Client Mrs. Mary Linda W/o. Mr. Sundar Singh residing at No.2-2, Pannaiyal Street, Krishnapurthoor, Thovalai, Kanyakumari – 629302 do hereby informing to the General Public that she has LOST the Original Property Document No. 794/2009 registered in Thovalai Sub Registrar Office. Those who found it please inform to the below my address.

கொடைக்கானல்

கொடைக்கானலில் இலவச நாய்கள் தடுப்பூசி முகாம்

திண்டுக்கல் மாவட்டம் கொடைக்கானல் ரேபிஸ் இல்லா கொடைக்கானல் என்ற தலைப்பில் இலவச நாய்கள் தடுப்பூசி முகாம் இன்று தொடங்கி வரும் 10ஆம் தேதி வரை நடைபெற உள்ளது இந்த முகாமினை கூடுதல் முதன்மை செயலாளர் மற்றும் மின்வாரிய நிர்வாக இயக்குனர் ராதாகிருஷ்ணன் கலந்து கொண்டு இந்த முகாமில் தொடங்கி வைத்தார்..

தாலுகா செய்தியாளர் பிரவீன் ராஜா

Challenges and Mitigation

Weather- protective clothing

Terrain and Dense shrubs- appropriate footwear and gear

Scattered and low dog density- Static point and community leaders

Long travel – first aid, water

Low connectivity – identify assembly point

Language barrier – locals in the team

Low owner compliance – awareness and local body engagement

Festival time, loudspeakers , fires crackers bursting (Dogs in Hiding)
