Kspca 2nd equine medical camp sept 2016:::

Kodaikanal society for protection and care for animals (Kspca) conducted the 2nd equine medical camp in Kodaikanal on sept 8 2016 . The first was on Feb 23rd 2016 and we plan to repeat it twice a year for the welfare of horses once before summer and winter season... The medical camp was conducted with the support of Makapa Anand who sponsored the medicines needed for the camp. We thank Makapa Anand for his generous contribution and celebrities should come forward and support for such cause for the voiceless and for conservation and we hope in future many will join us and be the voice for the voiceless.

Dr Jeyraj Andivel who is a regular vet for Kspca said tetanus bacterium is a normal inhabitant of the gastrointestinal tract of many animals (horses) and has worldwide distribution . Once on the ground it forms spores and lives for years . Therefore areas adjoining to wildlife must get vaccination for tetanus to prevent contamination. And it is really lovely that Kspca is conducting such camps . Also to thank celebrity Makapa Anand to come forward and sponsor the equine camp.

And such camps is only successful with the support of animal husbandry, kodai smile , kodai Makkal , various ngos and forest department . Together a lot can be achieved for the welfare of animals.

Dfo Dr Murugan IFS of Kodaikanal inaugurated the medical camp . Along with basic deworming and Tt for horses , guidelines and awareness for proper care upkeep and maintenance was given to the horse owners. Dr Thangamani from vilipuram a very passionate young vet have proper medication for the horse and advise for the horse owners . Many horses suffered colic , pain and cold due to the weather conditions as kodai is getting very cold .

Conducting such camps along with education and awareness is the need of the hour . Vaccinations and deworming needs to be given every six months for the horses And this will continue twice every year for sure with the help of lovely sponsors and donors and well wishers .

The camp was held in 4 places . Kalaiaragam and bryant peck area of lake , golf club and pine forest area .

Total of 42 horses were dewormed vaccinated and treated .

Our next camp will be held 6 months from now on Feb 2017 and we would like as much as help from people and departments to support us .

PLEASE PRINT OR TYPE NAME AND ADDRESS:

INDIAN SOCIETY FOR PROTECTION
AND CARE FOR ANIMALS
(ISPCA)

Thank u so much Makapa Anand (Vijay tv) for all you do for the voiceless and sponsoring for the 2nd equine medical camp on sept 8 th 2016 .

More celebrities should come forward and support such cause ...

MEDIA RELEASE:

Health camp held for horses in Kodaikanal (TOI)

P Oppili| TNN | Sep 11, 2016, 09.10 AM IST

CHENNAI: Forty two horses were administered [tetanus](#) vaccine and dewormed at a [horse](#) camp held in [Kodaikanal](#) on Thursday.

The camp was organised by the Kodaikanal Society for Protection and Care for Animals (KSPCA). Managing trustee of KSPCA Janani said this was the second such camp organised this year. The earlier camp was held in February before the start of summer.

Veterinarian Jeyraj Andivel said tetanus bacterium is a normal inhabitant of the gastrointestinal tract of many animals and has worldwide distribution.

Guidelines for proper care and maintenance of the horses were given to the horse owners. Many horses suffered colic pain and cold due to the weather conditions in Kodaikanal, veterinarian Thangamani said.

KSPCA organisation received the required medicines for the camp from popular radio jockey and actor Ma Ka Pa Anand. Kodaikanal district forest officer Murugan inaugurated the camp

கொடைக்கானலில்

குதிரைகளுக்கு இலவச பரிசோதனை முகாம்

► பரிசோதனைக்கு தயாராக நிற்கும் குதிரைகள். கீழ்படம்: குதிரைக்கு தடுப்பூசி போடும் கால்நடை மருத்துவக் குழுவினர்.

கொடைக்கானல், செப்.9: கொடைக்கானலில் விலங்குகள் நல அமைப்பு சார்பில் குதிரைகளுக்கு இலவசப் பரிசோதனை முகாம் நடத்தப்பட்டது.

இந்த முகாமில் கொடைக்கானல் ஏரிச் சாலையில் கற்றுலாப்பயணிகள் சவாரி செய்யும் தொழிலாளர்களின் 35 குதிரைகளும், கால்நடை மைதான குதிரைத் தொழிலாளர்களின் 7 குதிரைகள் உட்பட மொத்தம் 42 குதிரைகளுக்கு இலவச பரிசோதனைகள் மேற்கொள்ளப்பட்டன.

இதில் குதிரைகளுக்கு இயல்பாக வரும் நோய்களான குடற்பூழ், வைரல் கிருமி, ஹெல்மெந்திக் கிருமி, பாக்டீரியா போன்ற நோய்களுக்குண்டான மருந்துகள் மற்றும் தடுப்பூசிகள் போடப்பட்டன.

விழுப்புரத்தில் இருந்து வந்த கால்நடை மருத்துவக் குழுவினர் இந்த பரிசோதனைகளை மேற்கொண்டனர். இதில் மாவட்ட வன அலுவலர் முகன் பரிசோதனை முகாமைப் பார்வையிட்டார்.
